    - 7.2.1 Resolution to approve the installation of a Crime Stoppers Sign
  - 7.3 **CAO/Clerk Department**
    - 7.3.1 Action Report - Options to Fill the Vacancy on Ward 5 **p. 12**
    - 7.3.2 Action Report - Dupuis Drain **p. 14**
  - 7.4 **Finance Department**
    - 7.4.1 Treasurer's Report **p. 20**
    - 7.4.2 Presentation and Resolution to renew the Municipal Insurance with J.G. Rivet Broker Limited
  - 7.5 **Building Controls / Municipal Law Enforcement Department**
    - 7.5.1 Chief Building Officer's Report **p. 21**
  - 7.6 **Parks, Recreation & Facilities Department**
    - 7.6.1 Parks, Recreation & Facilities Manager's Report **p. 25**
  - 7.7 **Economic Development Department**
    - 7.7.1 Economic Development Manager's Report **p. 26**

**7.8 Public Works & Environmental Department**

**7.8.1** Information Report - Status of the Waste Collection Vehicle \*

**7.9 Manitoulin-Sudbury District Services Board**

**7.10 French River Public Library Board**

**7.10.1** Library Chief Executive Officer's Report p. 28

**7.11 Fire Department**

**7.11.1** Action Report - Request for exception to the Procurement Policy for the purchase of Self Contained Breathing Apparatus (SCBA) p. 32

**8. Correspondence for Council's Consideration**

**8.1** Ethosolar Inc. (Delegation at the June 24<sup>th</sup> meeting of a solar project)

- Municipal Council Support Resolution

**9. Verbal Motion to return into the Regular Meeting**

**REGULAR MEETING**

**10. Resolution adopting proceedings from Council in Committee**

**11. Consent Agenda - Resolution to Approve Items 11.1, 11.4 and Receive Items 11.2, 11.3**

(For the purpose of convenience and for expediting the meeting, matters of repetitive or routine nature are included in the Consent Agenda and are voted on collectively. A Member of Council can request an Item to be singled out from the Consent Agenda to allow debate while all other Items remaining are voted on collectively. Each Item contained in the Consent Agenda is recorded separately in the minutes of the meeting.)

**11.1 Adoption of Minutes**

**11.1.1** Special Meeting of Council held May 27, 2015 p. 33

**11.1.2** Special Meeting of Council held June 10, 2015 p. 36

**11.1.3** Regular Council Meeting held June 24, 2015 p. 42

**11.2 Minutes Received**

**11.2.1** French River Public Library Board held May 19, 2015 p. 50

**11.3 Correspondence for Council's Information**

**11.4 By-laws**

**11.4.1** 2015-42 Recycling Collection and Processing Services with the City of Greater Sudbury to Amend By-law 2006-52 - Processing Rates p. 53

**11.4.2** 2015-43 Off Road Vehicle By-law \*

**11.4.3** 2015-44 Zoning By-law Amendment (Philip Pilon & Frances Pilon) p. 54

**11.4.4** 2015-45 Zoning By-law Amendment (Lahaie Lumber Ltd) p. 57

**11.4.5** 2015-46 Confirmation By-law

**12. Addendums**

**13. Notices of Motion**

**14. Announcement and Inquiries (from Council Members and Public)**

(This section of the Agenda is to allow Members of the Public and Members of Council to make brief verbal announcements and inquiries with the permission of the Chair. Inquiries shall deal with items pertaining to the current Agenda for the purpose of clarification only, and shall not be used to table new items that require Council's/Committee's consideration.

**15. Adjournment**

## Municipalité de la Rivière des Français

### ORDRE DU JOUR RÉUNION RÉGULIÈRE DU CONSEIL qui aura lieu dans la salle du conseil Complexe municipal de la Rivière des Français Mercredi le 8 juillet 2015 à 18h

1. **Appel à l'ordre, présence et l'adoption de l'ordre du jour**

## Action Report

<b>REPORT TO:</b> Council	<b>REPORT FROM:</b> Mélanie Bouffard Clerk	<b>MEETING DATE:</b> July 8, 2015
------------------------------	--	--------------------------------------

### Options to Fill the Vacancy on Ward 5

#### Background

Councillor Tammy Mitchell passed away in a tragic accident on June 8, 2015. At the June 24<sup>th</sup> Regular Council Meeting, the Office of Ward 5 Councillor was declared vacant and the Clerk was directed to report to Council on options to filling the vacancy.

The Municipal Act, 2001, S. 263 establishes alternatives and rules for filling a vacancy on Council; either by appointment or by by-election.

#### Discussion

Council must make the appointment or pass a by-law requiring a by-election within 60 days from the date of the declaration of the vacancy; the deadline is August 23, 2015.

Appointment - process is not prescribed and is typically held in the followed two methods:

- appoint any person qualified to hold the Office of Ward 5 Councillor who has consented to hold the office
- invite eligible persons to submit applications, the following process could be used:
  - advertisement requesting eligible persons to submit applications within a defined period of time
  - applicants to address Council at a Special Council Meeting
  - Council appoints the preferred candidate, could be selected by way of run-off ballot, ranking the candidates in order of preference to ensure that the candidate is chosen by a majority of votes

By-election - process is prescribed by the Municipal Act, 2001 and the Municipal Elections Act, 1996

The by-election shall be conducted as far as possible in the same way as the regular elections, therefore Vote by Mail should be used.

The Clerk shall fix the Nomination Day, to be no more than 60 days from the date Council passes a by-law to hold a by-election and Voting day 45 days after Nomination Day.

If Council were to select this option, a by-law would be brought forward at the August 12<sup>th</sup> Council Meeting for approval, with a target election date to be in November 2015.

### Appointment vs By-election - a few facts to consider

- Appointment is less costly to the Municipality and to the candidates
- By-election is considered a Democratic process as eligible electors elect a candidate while appointment is a Non-democratic process whereby Council selects a preferred candidate
- Appointment would fill the vacancy approximately 2 months sooner than in a by-election

### Historical Background

Early in the 2010-2014 term of Council, there were two vacancies resulting from resignations. Both vacancies were filled by appointing the runner-up; in each situation the vote percentages were very close between the winner and runner-up candidates.

### Ward 5 Election Information

- 492 Eligible Voters (based on 2014 Elections)
- 2014 Voting Turnout was 70% in 2014, and 71% in 2010

Petition by Allan & Annie Hébert - submitted to the Clerk on June 24, 2015

The petition is being presented to Council as a Delegation at the July 8 Council Meeting. The statement of purpose is 'Request a by-election to replace our Councillor Tammy Mitchell as she has sadly passed, in order to honor the democratic process, the residents of Ward 5 want the opportunity to elect a new councillor for Ward 5'

The petition was reviewed as follows:

- 73 names on petition
- 4 names not eligible (not residents of French River)
- 69 eligible names on petition

### Financial Considerations

Appointment - minor costs depending on the method chosen such as advertising.

By-election - the cost is estimated at \$1,700, based on voter list management, Vote by Mail Kits, advertising, postage and supplies.

### Strategic Plan

It is a Core Value of the Community Strategic Plan 'To provide meaningful and realistic opportunities for the public to become involved'.

### Communication Plan

Communicate the method chosen by Council on our website and advertising depending on method chosen.

### Recommendation

That Council directs the Clerk on the manner to fill the vacancy.

## Action Report

<b>REPORT TO:</b> Council	<b>REPORT FROM:</b> Mélanie Bouffard, Clerk	<b>MEETING DATE:</b> July 8, 2015
------------------------------	--	--------------------------------------

### Dupuis Drain

#### Background

The Dupuis Drain was established in 1972.

#### Discussion

The Municipality is responsible for maintaining municipal drains on behalf of the community of landowners involved in the drain.

An Engineer's Report for every Municipal Drain includes a Schedule of Assessment which contains the names of the landowners with a description of each parcel of land assessed.

The Dupuis Drain currently needs to be maintained and repaired to ensure efficient drainage. When maintenance is required, the assessment report is reviewed to ensure that it is still appropriate. Through the review, the assessment schedule was identified as needing an update since several severances have occurred. The last time that major maintenance work was done was in 2001.

The original report contained 6 land parcels, it could now contain up to 17 land parcels.

Once the new Assessment Schedule is complete, it will be considered by By-law and the same process as for a new drain will proceed such as meetings with land owners and Court of Revision (committee consisting of Members of Council to hear appeals on the assessment).

#### Financial Considerations

There are no financial considerations for Council as landowners will be billed for their share of the cost of the new Assessment Schedule and maintenance work.

#### Strategic Plan - n/a

#### Communication Plan

Landowners will be given notice as per requirements of the Drainage Act.

#### Recommendation

That Council authorizes the Engineer (K. Smart Associates) to proceed with a New Assessment Schedule Report under Section 76 of the Drainage Act for Dupuis Drain.

#### Document(s) Attached

- Fact Sheets - So what's a Municipal Drain? and Understanding Drainage Assessments

## SO, WHAT'S A MUNICIPAL DRAIN?

S. Vander Veen

(Reprinted, October 2004)

Perhaps you've just purchased property, and been told by your municipality that you are assessed into a municipal drain. Perhaps you have owned a property for a couple of years and have recently discovered that you are located in the watershed of a municipal drain. You're probably wondering, what does this mean? How does it affect me? What will it cost?

### PHYSICALLY, WHAT IS A MUNICIPAL DRAIN?

Physically, a municipal drain is simply a drainage system. Most municipal drains are either ditches or closed systems such as pipes or tiles buried in the ground. They can also include structures such as dykes or berms, pumping stations, buffer strips, grassed waterways, storm water detention ponds, culverts and bridges. Even some creeks and small rivers are now considered to be municipal drains. Municipal drains are primarily located in rural agricultural areas of the province.

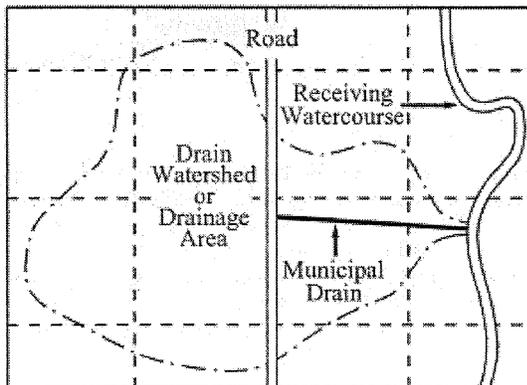

FIGURE 1. Plan of a Municipal Drain

### THE PURPOSE OF MUNICIPAL DRAINS

Municipal drains have been a fixture of rural Ontario's infrastructure since the 1800's. Most municipal drains were constructed to improve the drainage of agricultural land by serving as the discharge point for private agricultural tile drainage systems. However, they also remove excess water collected by roadside ditches, residential lots, churches, schools, industrial lands, commercial lands and any other properties in rural areas.

They are a vital component of the local infrastructure. Without them, many areas of the province would be subjected to regular flooding, reduced production from agricultural land and increased public health risks.

### WHY IS IT CALLED A "MUNICIPAL DRAIN"?

There are many, many drainage ditches and buried pipes in the province, but not all of them are "municipal drains". So what distinguishes a municipal drain?

Municipal drains are created under the authority of the *Drainage Act*. There are 3 key elements of a municipal drain:

1) **Community project** — Landowners who need to solve a drainage problem may submit a prescribed petition under the *Drainage Act* to their local municipality, requesting the establishment of a municipal drain. If certain criteria are met, the municipality appoints an engineer who prepares a report, identifying the proposed solution to the problem and how the costs will be shared. There are various meetings where landowners in the watershed of the municipal drain can voice their desires and concerns. There are also several appeal stages where they can voice their objections. So, the end result of the process is a "communally accepted" project.

2) **Legal Existence** — After all appeals have been heard and dealt with, the municipality passes a by-law, adopting the engineer's report. The municipality then has the authority and the responsibility to construct the project. The cost of the work is assessed to the lands in the watershed in the same ratios as contained within the engineer's report. So for a ditch or a pipe to be a municipal drain, there must be a by-law adopting an engineer's report.

**3) Municipal Infrastructure** — Once a municipal drain has been constructed under the authority of a by-law, it becomes part of that municipality's infrastructure. The local municipality, through its drainage superintendent, is responsible for repairing and maintaining the municipal drain. In certain circumstances, the municipality can be held liable for damages for not maintaining these drains.

#### DO'S AND DON'TS FOR PROPERTY OWNERS

##### You should:

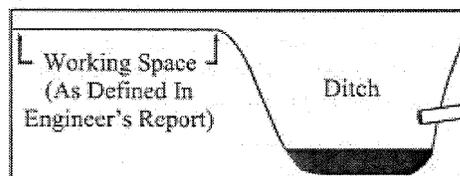

- Find out the name of your local municipality's drainage superintendent.
- If you don't have any information on the municipal drains that affect your property, make arrangements with your municipality to get copies. Please note you may have to pay for the photocopies.
- Find out how the municipal drain affects your property. How much is your property assessed? Are there any buried municipal drains that cross beneath your land? Is there a municipal working space along or above a municipal drain on your property?
- Remove debris from any catchbasins that may be located on your property or the adjoining road. This type of ongoing preventative work can reduce the possibility of property damage during storm events
- As an involved landowner, you have a responsibility for the drains located on your property, so observe them. If you notice any problems, immediately notify the drainage superintendent or the local municipality.
- Before purchasing a property, investigate how municipal drains may affect the property.

##### You can expect:

- Municipalities must maintain their municipal drains. Therefore, if you have a municipal drain located on your property, you can expect that your municipality will periodically arrange to enter onto your property and perform the necessary work. After it is completed, you will be billed for your share of the cost.
- For a period of time while the work is being completed, you can expect the working space along the drain to be accessed by the maintenance equipment and the land to be disrupted to some degree. Because this working space is a form of an easement, you will not be paid for any damages that occur on this land.
- Municipalities have the right to accumulate the cost of maintaining a drain for up to five years or \$5,000. Therefore, it is possible that you may be billed for work that occurred before you owned a property.

##### You should NOT:

- Along every municipal drain is an unregistered working space that the municipality has the right to use to maintain or repair the drain. Keep this working space accessible and do not plant trees or build structures in this area. If you do, and it results in an obstruction to the maintenance equipment, you may have to pay the cost of removing that obstruction.
- Don't store materials such as brush, lumber or other floatable material near the drain, because during storm events, it could float away and block the drain.
- The local municipality is responsible for maintaining municipal drains on behalf of the community of landowners involved in a drain. If you want to install a culvert or bridge on an open ditch municipal drain, or if a municipal drain requires maintenance, don't perform the work yourself; instead notify your municipality. If you do unauthorized work on a drain and that work results in damages to the drain or to other landowners, you could be responsible for paying the cost of repairing the damages.
- Although they are "man-made", all municipal drains eventually connect with the many beautiful lakes, rivers and streams located in Ontario. Do not direct septic system waste, milkhouse wastes, barnyard and manure storage runoff or other pollutants directly to these drains.

## UNDERSTANDING DRAINAGE ASSESSMENTS

Agriculture and Rural Division  
(Reprinted March 1997)

The *Drainage Act* provides a legal procedure by which an "area requiring drainage" may have an outlet drain constructed to dispose of excess water.

The drainage work is initiated by interested individuals within an "area requiring drainage" who will benefit from the construction of the drain. A petition form, obtained from the municipal clerk, is signed by interested landowners. In order to be valid or sufficient, the petition must be signed by the majority of the owners in the "area requiring drainage" or by owners that represent at least 60% of the lands in this area. The "area requiring drainage" is usually described by lot and concession, or other legal land description. By taking this action, it is presumed that the owners signing the petition have made a decision that the drain will be of benefit to them and that the probable cost will be lower than the anticipated benefits. The initial benefit-cost decision is made at this point by the landowners, not the engineer or Council.

The petition is presented to and considered by Council. If the petition represents a proper "area requiring drainage", that is a real drainage basin, and appears to be valid, the Council may decide to proceed. Council then notifies each of the petitioners of this decision as well as any other municipality affected and the local Conservation Authority and the Ministry of Natural Resources.

Council then appoints an engineer. The engineer is an employee of Council, hired to design this specific drain. Under *The Drainage Act*, Section 9(2), the engineer is required to hold an on-site meeting to determine (1) the area requiring drainage, (2) if the petition is valid, (3) the drainage needs of the area. The engineer is then required "to make an examination of the area requiring drainage as described in the petition and to prepare a report which shall include:

- (a) plans, profiles and specifications of the drainage works;
- (b) a description of the area requiring drainage;
- (c) an estimate of the total cost thereof;
- (d) an assessment of the amount or proportion of the cost of the works to be assessed against every parcel of land and road for benefit, outlet liability and injuring liability;

- (e) allowances, if any, to be paid to the owners of land affected by the drainage works and
- (f) such other matters as are provided for under this Act."

The engineer's report is presented to Council, who then notifies all persons assessed and calls a special meeting where the report is considered. General objections to the report may be raised at this time. At this meeting signatures may be added or removed from the petition and this determines if the project will continue. Unresolved problems, depending on the subject, may be appealed to the Court of Revision, the Ontario Drainage Tribunal or the Drainage Referee. Details on appeal procedures may be found in *The Drainage Act*\* or in Ontario Ministry of Agriculture, Food and Rural Affairs Factsheet, Drainage Legislation.

The engineer's report includes two important items:

1. The estimated cost of the work — No matter how individual assessments are arrived at, this total estimated cost must always be equal to the total amount assessed, otherwise the work cannot proceed.
2. The assessment liability — This may be spread over several pages if an owner owns several parcels of land and if there are branch drains. It may be summarized.

Let us examine the obligations regarding this assessment.

### RESPONSIBILITIES UNDER COMMON LAW

A natural watercourse is defined generally as a stream of water which flows along a defined channel, with bed and banks, for a sufficient time to give it substantial existence. This may include streams that dry up periodically.

\**The Drainage Act* may be found in the Revised Statutes of Ontario 1980, Chapter 126, available in most public libraries. Individual copies may be purchased from the Ontario Government Bookstore, 1-800-668-9938.

A riparian landowner (owner of lands that abut upon a natural watercourse) has the right to drain his or her lands into the natural stream, but may not bring water in from another watershed. He or she can collect water in ditches and drains and discharge it into the watercourse even though it results in an increase in volume and rate of flow.

Where a natural watercourse becomes a part of a drain, it is no longer a natural watercourse. When this occurs, the riparian rights, as described earlier, are lost.

Surface water not flowing in a natural watercourse (i.e. not having discernible bed and banks) has no right of drainage. An owner of lower land may, at his or her own choice, either allow the water from higher land to flow over it or by dams or banks, keep such water off his or her property. No owner has the right to collect such surface water by ditches or drains and discharge it on lands of another. He or she has a responsibility to take this water to a sufficient outlet, i.e., a natural watercourse or a drain constructed under *The Drainage Act*.

Since there is no right to drain surface water, the owner of each parcel of land in the watershed is generally assessed for "outlet liability". In other words, his or her Common Law liability is removed by paying for the increased size or cost of the drain due to the volume of water which is discharged from his or her property, even though the drain may not provide a direct outlet for this water. The authority for this liability is set out in Section 23(1).

Since, through Common Law, a landowner is also liable for any damage he or she may cause from water which he or she collects in drains and discharges on other land without a sufficient outlet, he or she may be assessed for relief from such "injuring liability" if the new drain serves as an outlet for his or her drains and prevents this injury from occurring. The authority for this liability is set out in Section 23(2).

Injuring liability is frequently difficult to distinguish from outlet liability, consequently many engineers' reports do not contain such an item.

The assessment for outlet liability and injuring liability is based on the volume and rate of flow of the water artificially caused to flow from an owner's property. Generally, the assessment is based upon a unit value per hectare. Owners at higher elevations on a watershed may have a higher unit charge than those owners near the outlet since the water from their land makes use of a greater length of drain. A difference may be made in the unit outlet charge due to varying types of soil or land use, or the distance to the drain.

## RESPONSIBILITY UNDER THE DRAINAGE ACT

In addition to the Common Law responsibility, an owner may also be assessed for benefit.

Benefit will vary between different lands, according to their differences of elevation, quantity of water to be drained from each, distance of undrained land from the course of the proposed ditch, and the presence or absence of existing drains, and other like factors.

To consider whether a parcel of land will receive any benefit from the construction, it is proper to consider whether any enhanced financial value will accrue to it as a result of the drain construction. This may occur through the increased productive power of the land or by rendering it more salable and at a better price, or by preventing water from entering on to it.

If the proposed drainage works can be of no possible benefit to the owner, or is of no commercial or agricultural value, the Act does not authorize a contribution for benefit.

Sometimes, an owner has an undeveloped area that he or she intends to leave in this condition. The owner may feel that he or she should not be assessed since the drain will be of no benefit. However, the property could change hands and the new owner might want to drain and develop it. It is with this in mind that the engineer must make an assessment, regardless of the present owner's intentions.

It is the duty of the engineer to determine whether or not a parcel of land will benefit from the project. When appealing a benefit assessment, the landowner must prove that the land does not benefit from the drain.

An owner has no responsibility for work done upstream from his or her property unless the work provides a benefit by "cutting off" a harmful flow of water across the property.

In some instances, a "special benefit assessment" may be levied against the property. This value usually represents the difference in cost between that which was originally designed and the increased level of design requested by a landowner. Examples include a closed or tile drain where open ditches would ordinarily suffice, or the construction of ponds beside the drain, or other special requests by a landowner specifically for this benefit. The authority for this liability is set out in Section 24.

## **ENGINEER'S REPORT**

The Engineer's report should contain a plan and profile of the drain, as well as details on the drain design and the assessment schedule.

The plan shows the location of drains and the limits of the watershed. The profile shows ground elevations along the drain and the present and proposed drain bottom. The specifications give details on how the drain is to be constructed.

The Schedule of Assessment contains several columns. The first group contains the names of owners with a description of each parcel of land assessed.

The hectareage shown in the schedule for which an owner is assessed is only approximate. No survey is made to accurately establish the watershed boundary or farm areas. Any minor error in hectareage assessed is not a valid basis for appeal nor does it greatly affect the assessment. The other columns in the Schedule set forth the assessment liability for each drain and/or branch drain. These values are only estimates. The final value will not be known until the construction work is finished. The assessment will then be prorated to recover the actual cost.

Allowances to lands injured by the work are set out in a separate schedule by the engineer as authorized in Sections 29 to 33 of *The Drainage Act*.

Damage to crops during construction and disposal of waste material will vary depending on the time of year that the work is constructed. Crop damage due to spreading the spoil on the banks is based on a decreasing yearly loss of crop over several years. All or part of the cost of access bridges from a public road to the property may be assessed to the property owner.

Farm bridges are constructed as a part of the work. In certain circumstances a severance allowance may be paid instead of building the bridge. The allowance will depend upon the value of the land severed, or the cost of the bridge that would be required. The cost, or part of the cost of farm bridges or the severance allowance may be assessed across the property.

Where private drains are incorporated into the new drain, a nominal allowance may be paid based on any saving that may result from using the private drain. These allowances may not be included in the Summary of Assessments but are usually shown in a separate Schedule of Allowances.

## **RELEVANT OMAFRA FACTSHEETS**

## Information Report

<b>REPORT TO:</b> Council	<b>REPORT FROM:</b> Julie Bouthillette, CPA, CGA	<b>MEETING DATE:</b> July 8 <sup>th</sup> , 2015
------------------------------	---	---

### TREASURER'S REPORT

#### **Cash Disbursements**

The May 2015 cash disbursements totaled \$507,135.60.

#### **Budget versus Actual 2015**

The Budget versus Actual and Committed – to July is supplied Under Separate Cover.

#### **Budget 2016**

Budget Process and Plan is scheduled to come to council in August 2015.

#### **Procurement Policy**

The procurement policy was distributed in March 2015 for Council's Review. It will be brought forward at the August Council Meeting for consideration and adoption.

#### **Insurance**

The insurance renewal shows a 17% overall increase this year from (\$86,000 to \$101,500). The majority of it is coming from the property rates this year. Unfortunately, there have been several fire losses exceeding \$1,000,000 under the program in various municipalities across Ontario which prompted AIG to re-evaluate their property rates. That being said, the rate on which the Property premium is developed is under \$0.20 which is still an excellent rate for fire hall protected properties. Liability of course is still the challenge and we are likely to see small incremental increases year-over-year for this coverage. Of course, certain municipalities could see larger increases based on their individual loss ratios.

I have also requested Rivest Insurance and BFL to quote on an 18 month Policy to end on January 15th, 2017. This will facilitate future budgeting. I believe the 18-month policy term option works best for the Municipality as it guarantees the premium for that period of time.

## Information Report

<b>REPORT TO:</b> Council	<b>REPORT FROM:</b> Michael Campbell Chief Building Official & MLEO	<b>MEETING DATE:</b> July 8, 2015
------------------------------	---	--------------------------------------

### CHIEF BUILDING OFFICIAL AND MUNICIPAL LAW ENFORCEMENT OFFICER'S REPORT

#### SUBJECT

To provide Council with updates of ongoing matters in the Building Control and By-Law Enforcement Department.

#### Building Controls

Attached is the monthly/year-to-date report for the Building Controls department.

#### MLEO Department

As of July 1st, 2015, amendments to the provincial legislation for use of off-road vehicles were made, notably O. Reg. 316/03: Operation of Off-Road Vehicles on Highways under Highway Traffic Act, R.S.O. 1990, c. H.8.

In order to adhere to the new provincial changes, a new ATV By-Law has been created. Awaiting the revision and passing by Council, the By-Law will permit the operation of multiple-passenger ATVs, including two-ups and Utility Task Vehicles (side-by-sides), on municipal roads and highways. All other provisions within the previous ATV By-Law will remain in full effect in the new By-Law.

The new ATV By-Law is attached in the By-Law section of the agenda.

## Information Report

<b>REPORT TO:</b> Regular Council Meeting	<b>REPORT FROM:</b> Economic Development Department	<b>MEETING DATE:</b> July 8, 2015
--	---	--------------------------------------

### **ACTIVITY REPORT – ECONOMIC DEVELOPMENT DEPARTMENT**

#### **Subject**

To give an update on activities during the month of June 2015.

#### **Update**

The photography inventory is being completed every second Monday, we schedule Shannon Mckinnon to visit approximately four to five sites a day where she takes raw photos of the location inside and outside. These pictures will later be uploaded to the Ontario Media Development Corporation database.

The 400<sup>th</sup> Celebrations started on June 22<sup>nd</sup>, in partnership with Ontario Parks we received the three schools to the French River Visitor Center, the students participated in full day of workshops making mini snow shoes, origami canoes, bracelets, paintings etc. The kids also participated in an interpretative museum tour where they were educated on the culture and heritage of French River. There were also two hikes, one to Recollet Falls and one across the pedestrian bridge. The three days were a success and each participant left with a t-shirt that represents the map of Samuel De Champlain and all the activities that will be held in French River over the next couple of months.

The next business development workshop will be held on September 23<sup>rd</sup>, this workshop will be aimed at learning how to present to a group of people with confidence. The business surveys will begin in mid-July and anticipating a completion date of early October. The next steps in this program is to join the agricultural sector together, this will be done by dinner in early fall, more details to follow as the planning stages have just begun.

Canada Day Celebrations were a success, there were approximately 800 people that came to celebrate and join in the festivities. There was a vendors market, live entertainment, kids zone and BBQ that lasted all day. The fireworks display was completed without incident and the feedback form residents have been positive. The funding application for 2016 deadline is November 15<sup>th</sup>, 2015.

The Community Development Officer completed his sessions of youth sport programming and the attendance continued to be high during the sessions that were held on Tuesday, and Wednesday nights. The programming will now begin for summer activities; in partnership with the French River Library every Tuesday and Thursday's from 10am -12pm the kids will be able to participate in a variety of activities. The day trips will also commence on July 8<sup>th</sup> with a day trip planned for Sudbury Kartway's and ARC Climbing. The day trips will continue into August.

**TO: Library Board Members**

**FROM:** Linda Keenan/CEO French River Public Library  
**SUBJECT:** CEO's written Report  
**DATE:** June 16, 2015

---

**Meetings:**

The Board held their regular meeting on May 19th.

**Updates:**

Alban branch does not have WIFI capabilities at this moment we are still working on the problem.

**Events:**

We hosted 2 sessions on oils in partnership with Jeannette Forget who gave the demonstration at the Alban Branch on May 21 and at the Noelville Branch on May 27. We hosted a seniors' event in Alban on June 2 and in Noelville on June 3. We had a really good turnout. Some of our partnerships were on hand to provide valuable information such as Danielle Trudeau Dietitian, Julie Raymond from the Health Centre and Gisele Henderson from the Health Unit.

**Closure:**

**Programs:**

Our computer programs, technology sessions and children's reading/activities are ongoing. We are in the midst of forming partnerships and planning our Summer Children's Program.

Thank you

# French River Public Library

## 2014 Report

The French River Public Library plays a vital role in the community.

We recognize the importance of lifelong learning. Thus throughout the year we aim to provide services that meet the needs of our patrons.

The staff aims to provide patrons with a variety of popular titles and new releases through alternative reading formats. In addition computer courses at different levels offer patrons the possibility of improving their technological skills.

Reading activities and crafts for students of all ages are designed to encourage participation in various programs. Our Early Literacy Station offers a dynamic way to strengthen reading skills of young children.

The Board of Directors in partnership with the CEO is committed to improving service to its patrons. To achieve this the following steps have been taken :

- Revision of programs
- Updates of policies and by-laws
- Development of strategic plan

The French River public library plays an important role in the lives of its citizens. We encourage all citizens to support this essential service.

## Action Report

<b>REPORT TO:</b> Council	<b>REPORT FROM:</b> Jacques Bouffard	<b>MEETING DATE:</b> July 8, 2015
------------------------------	---	--------------------------------------

### **REQUEST FOR EXCEPTION TO PROCUREMENT POLICY FOR THE PURCHASE OF SELF CONTAINED BREATHING APPARATUS**

#### **Background**

The 2015 Capital Budget included \$42,000 for twelve units of Self Contained Breathing Apparatus (SCBA) to be financed through 0% vendor financing payable over three years.

#### **Discussion**

Procurement Policy requires that all purchases anticipated to exceed \$25,000 be done through a tender process. As fire chief, direct quotation requests and verbal communication with the vendors has been chosen. Vendors were contacted and two quotes were obtained. The first quotation was for Drager SCBA and the second for MSA SCBA. The Drager were least expensive. Through conversation with the Treasurer she has advised that Council has the authority to make an exception to the procurement policy to allow this transaction without abiding by the tender process. A contract will be drafted with the awarded vendor to ensure that the equipment will be compliant with National Fire Protection Agency (NFPA) standards should the vendor not be able to pass the compliance full refund to the Municipality will be issued.

#### **Financial Considerations**

Purchase Price: \$52,260 (Plus HST)  
Financing Cost: 4,297 (over 3 years = approx. 2.8%)

#### **Strategic Plan**

**Objective:** Ensure community safety.

#### **Communication Plan**

N/A

#### **Recommendation**

That Council directs staff to procure the SCBA from the quotes received, allows an exception to be made to the procurement policy and allows the Mayor and Clerk to enter into an agreement with the awarded vendor.

### MINUTES OF THE SPECIAL MEETING OF COUNCIL

held in the Council Chambers  
French River Municipal Complex  
Wednesday, May 27, 2015 at 5:30pm

*Re: To consider proposed amendments to Zoning By-law 2014-23*

**Members Present:**

Mayor Claude Bouffard(Chair), Councillors Michel Bigras, Ronald Garbutt, Tammy Mitchell, Denny Sharp, Dean Wenborne

**Members Excused:**

Councillor Gisèle Pageau

**Officials Present:**

Mélanie Bouffard, Acting CAO/Clerk  
Julie Bouthillette, Treasurer/Tax Collector  
Melissa Riou, Director of Planning, Sudbury East Planning Board

**Guests:**

7 Guests

**1. Call to order, roll call and adoption of the agenda**

The Chair called the meeting to order at 5:30 pm

---

Moved By: Denny Sharp  
Seconded By: Michel Bigras

Resol. 2015- 163

**BE IT RESOLVED THAT** the agenda be accepted as distributed.

Carried

---

**2. Disclosure of Pecuniary Interest**

None declared.

---

The Chair summarized the procedure of a Public Hearing to deal with the consideration of a proposed general amendment to Zoning By-law 2014-23.

The Director of Planning informed Council that the Notice of the Public Hearing was posted in the Municipal Office and was sent by First Class Mail on May 4, 2015 (being over twenty (20) days prior to this evening's meeting) to the assessed owners within 120 metres of the property subject to the proposed Zoning By-law Amendment, and to those persons and agencies likely to have an interest in the application and that included with each Notice was an explanation of the purpose and effect of the proposed

---

Zoning By-law Amendment application and a key map showing the location of the property.

### **3. Application from 1381429 Ontario Inc. (Mike Bouffard)**

The purpose of the Public Meeting was to consider a proposed amendment to Zoning By-law 2014-23 received from 1381429 Ontario Inc. (Mike Bouffard) to change the zoning of a portion of the subject lands (2 lots from associated plan of subdivision 52T-13001FR) from Open Space OS to Residential Rural RR to permit the lots to be developed for residential purposes.

The re-zoning application is intended to address a condition of Draft Plan Approval for the associated five (5) lot plan of subdivision. Application to rezone the other three (3) lots in the Draft Plan of Subdivision was made and By-law 2013-11 approved by Council on March 20, 2013.

The applicant has submitted the current application with the intent of having any appeal consolidated with the associated appeal of the draft plan of subdivision and re-zoning of the other three (3) lots in the plan of subdivision (OMB File No. PL130391).

Through agency circulation, there were no new comments or concerns received relating to the application.

The applicant was present; Mr. Bouffard summarized the history of his planning applications and explained that the purpose for the creation of additional lots on the golf course was to offset capital costs and for economic development enabling his business to grow to operate in all seasons.

The Mayor invited members of the public to ask questions or comment.

Tom Benvenuti, 324 Hwy 528, Noëlville, submitted a letter of opposition to the application on May 26, 2015 (copy attached to minutes) objecting that the MDS formulae was incorrect, for the proximity of his aggregate pit and for the negative impact in his farming operation. There is also a concern whether the water table is adequate and would impact his farm. He also stated that if they would reduce to three lots it would be acceptable but he will not agree to the lot closest to his lot line.

Allan Hebert, 301 Hwy 528, Noëlville, opposed the application and stated that even though OMAFRA said that the MDS is not required that the Municipality had the right to request it and the OMB had sided with the Municipality because it was good practice to request it.

Annie Hebert, 301 Hwy 528, Noëlville, opposed the application and read her letter of opposition (copy attached to minutes) which was then submitted to the Clerk.

---

The Applicant answered questions from Council as follows:

- a noise study was done and there were no impacts from his application
- there is a buffer zone between the lot 5 and the Benvenuti property
- the lots being proposed are across from the Hébert pasture land

The Director of Planning answered questions from Council as follows:

- the MDS is not generally applicable for this case since the current zoning of the subject land (OS) already restricts adjacent farming operations but the Municipality had reasonably requested it, there were three MDS formulas calculated with very conflicting results (by the applicant and the neighbouring properties), based on the concerns with accuracy of the information deferral was recommended until further information was provided, there is no update
- a private servicing evaluation was done by Terraprobe Ltd and there were no anticipated concerns with the water supply

Councillor Dean Wenborne arrived at 5:55pm.

The Chair declared this Public Hearing to be concluded and advised of the 20 day appeal period to the Ontario Municipal Board and that during this appeal period, no building permit may be issued or other work commenced. The Zoning By-law Amendment will be considered by Council at tonight's Regular Council Meeting.

The Director of Planning informed Council that the Notice of the Public Hearing was posted in the Municipal Office and was sent by First Class Mail on May 21, 2015 (being over twenty (20) days prior to this evening's meeting) to the assessed owners within 120 metres of the property subject to the proposed Zoning By-law Amendment, and to those persons and agencies likely to have an interest in the application and that included with each Notice was an explanation of the purpose and effect of the proposed Zoning By-law Amendment application and a key map showing the location of the property.

---

#### **4.1 Application File No. ZBA 15-03FR (Robert Boivin and Leanne Pilon)**

The purpose of the Public Meeting was to consider a proposed general amendment to Zoning By-law 2014-23 received from Robert Boivin and Leanne Pilon to rezone the lots to be severed and lot to be retained through Consent Applications B/07-09/15FR from Rural to Residential Rural to recognize the intended use of the lots.

Through agency circulation, no concerns were received through agency circulation relating to the application. The Ministry of Natural Resources concurred with the final protective recommendations made by RiverStone Environmental Solutions with respect to the protection of significant habitat.

The applicant did not have any additional comments.

No one spoke in objection or in support of the application.

The Chair declared this Public Hearing to be concluded and advised of the 20 day appeal period to the Ontario Municipal Board and that during this appeal period, no building permit may be issued or other work commenced. The Zoning By-law Amendment will be considered by Council at Item 7 of the Agenda.

#### **4.2 Application File No. ZBA 15-07FR (Richard and Anne Thomas & Madeleine Thomas)**

The purpose of the Public Meeting was to consider a proposed general amendment to Zoning By-law 2014-23 received from Richard and Anne Thomas & Madeleine Thomas to facilitate the severance Application B/15/15FR of two lots which have merged on title due to the pattern of ownership.

No comments or concerns were received through agency circulation relating to the application.

The applicant was not present.

No one spoke in objection or in support of the application.

The Chair declared this Public Hearing to be concluded and advised of the 20 day appeal period to the Ontario Municipal Board and that during this appeal period, no building permit may be issued or other work commenced. The Zoning By-law Amendment will be considered by Council at Item 7 of the Agenda.

---

Carried

---

#### **2. PRAYER**

A moment of silence was taken.

---

#### **3. DISCLOSURE OF PECUNIARY INTEREST**

None declared.

## **4. DELEGATIONS**

### **4.1 Ontario Provincial Police**

Staff Sgt. Yves Forget, Detachment Commander presented the new format of the Municipal Policing Monthly Report (March & April 2015). The new reporting format and process is in line with the new costing format, it will have an extra column for calls for service, it is easier to read and to compare from year to year. The new format is a working progress and should be fully complete by September.

Since 2014, instead of attending Council Meetings, the monthly reports are presented at the Community Policing Advisory Committee (CPAC). The reports are still brought forward to Council for information in the agenda packages, but Staff/Sgt Forget reminded Council that he will make himself available to attend a Council Meeting when requested.

### **4.2 Ethosolar Inc.**

Gregg Anderson, Key Accounts Manager of Ethosolar Inc. presented the proposed solar project for Dan and Sylvie Séguin located in Monetville, Ontario.

The request to Council is to pass a resolution of support and issue bylaws in support of Dan & Sylvie Seguin's Ground Mount Solar Project in Monetville, Ontario to ensure that the solar power project receives two (2) Priority Points required in the IESO FIT 4.0 application process.

They are still waiting for the report from Hydro One to confirm capacity.

The Resolution to support will be considered at the July 8<sup>th</sup> Regular Council Meeting.

---

## **5. MANAGEMENT AND COMMITTEE REPORTS**

### **5.1 Mayor's Report**

---

#### **5.1.1 Declare the Office of Ward 5 as Vacant**

---

### **5.2.1 Creation of a Clerk Position (replaces Deputy Clerk Position)**

Moved By: Michel Bigras  
Seconded By: Ron Garbutt

Resol. 2015- 199

**BE IT RESOLVED THAT** Council agrees to create the position of Clerk to replace the position of Deputy Clerk as of July 6, 2015;

**AND THAT** the compensation be determined at the Regular Council Meeting of July 8, 2015.

Carried

---

## **5.3 Treasurer's Report**

### **5.3.1 Item withdrawn**

---

### **5.3.2 Appointment of Signing Authorities**

Moved By: Michel Bigras  
Seconded By: Gisèle Pageau

Resol. 2015- 200

**BE IT RESOLVED THAT** Council affirms that the following two members of Council and two employees are the signing authorities for the Municipality of French River as of July 6, 2015:

1. Mayor Claude Bouffard
2. Councillor Michel Bigras
3. Julie Bouthillette, Treasurer/Tax Collector
4. John Regan, Chief Administrative Officer

**AND THAT** the signing authority for Mélanie Bouffard be revoked.

Carried

## **5.4 Parks, Recreation & Facilities Department**

### **5.4.1 Facility Emergency Repairs - Roof at 37 St. Antoine**

Moved By: Dean Wenborne  
Seconded By: Ron Garbutt

Resol. 2015- 201

**BE IT RESOLVED THAT** Council approves that the amount of up to \$22,000 be taken from Reserves if required at year end for the emergency repairs to the roof of the facility at 37 St. Antoine Street.

Carried

---

## **5.5 Public Works & Environmental Department**

### **5.5.1 Approval of Request for Tender #2015-014**
